**Effects of Liquid-Phase Electrical Conductivity, Water Content, and Surface Conductivity on Bulk Soil Electrical Conductivity**, Rhoades, J. D., P. A. Raats, and R. J. Prather. (1976), Soil Sci. Soc. Am. J. 40:651-655.

**Measurement of Apparent Electrical Conductivity of Soils by an Electromagnetic Induction Probe to Aid Salinity Surveys**, de Jong, E., A. K. Ballantyne, D. R. Cameron, and D. L. Read. (1979), Soil Sci. Soc. Am. J. 43:810-812.

**An Electromagnetic Induction Technique for Reconnaissance Surveys of Soil Salinity Hazards**, Williams, B. G., and G. C. Baker, (1982), Australian Journal of Soil Res. 20: 107-118.

**The Use of Electromagnetic Induction for Locating Subsurface Saline Material. In 'Relation of Groundwater Quantity and Quality**, Williams, B.G., Fiddler, F-T., 1983, (Proceedings of the Hamburg Symposium, August 1983). IAHS Publishing No 146 189-196.

**Use of Electromagnetic Induction Instrument (Type EM-38) for Mapping Soil Salinity**, van der Lelij, (1983), Water Resources Commission, Murrumbidgee Division, New South Wales, Australia.14 p.

**A Rapid Method for Estimating Weighted Soil Salinity from Apparent Soil Electrical Conductivity Measured with an Aboveground Electromagnetic Induction Meter**, Wollenhaupt, N. C., J. L. Richardson, J. E. Foss, and E. C. Doll. (1986), , Can J. Soil Sci. 66:315-321.

**The Use of Electromagnetic Induction to Detect the Spatial Variability of the Salt and Clay Contents of Soil**, Williams BG & Hoey D 1987, Australian Journal of Soil Research 25, 21-28.

**Estimating Spatial Variations of Soil Water Content Using Noncontacting Electromagnetic Inductive Methods**, Kachanoski RG Gregorich EG & Van Wesebeeck IJ 1988., Canadian Journal of Soil Science 68, 715-722.

**Application of an Aboveground Electromagnetic Conductivity Meter to Separate Natraqualfs and Ochraqualfs in Gibson County**, Ammons JT Timpson ME & Newton DL. 1989, Tennessee. Soil Survey Horizons 40, 66-70.

**Soil Electrical Conductivity and Soil Salinity: New Formulations and Calibrations**, Rhoades, J.D., N.A. Manteghi, P.J. Shouse, and W.J. Alves. 1989., Soil Sci. Soc. Am. J. 53:433-439.

**New Calibrations for Determining Soil Electrical Conductivity Depth Relations from Electromagnetic Measurements**, Rhoades, J. D., S. M. Lesch, P. J. Shouse, and W. J. Alves. (1989), Soil Sci. Soc. Am. J. 53:74-79.

**Determining ECa-Depth Profiles from Electromagnetic Induction Measurements**, Slavich, P. G. (1990), Aust. J. Soil Res. 28:443-452.

**Determining Soil Electrical Conductivity-Depth Relations Using an Inductive Electromagnetic Soil Conductivity Meter**, Rhoades, J.D. and D.L. Corwin. 1991., Soil Sci. Soc. Am. J. 45:255-260.

**The Use of Electromagnetic Measurements of Apparent Soil Electrical Conductivity to Predict the Boulder Clay Depth**, Brus DJ Knotters M van Dooremolen P van Kernebeek P & van Seeters RJM 1992. Geoderma 55, 79-84.

**Depth Profiles of Electrical Conductivity from Linear Combinations of Electromagnetic Induction Measurements**, Cook, P.G., Walker, G.R., 1992.. Soil Science Society of America Journal 56, 1015-1022.

**Salinity Estimates in Irrigated Soils Using Electromagnetic Induction**, Diaz, L., and J. Herrero. (1992), , Soil Sci. 154(2): 151-157.

**Soil Salinity Mapping with Electromagnetic Induction and Satellite-Based Navigation Methods**, Cannon ME McKenzie RC & Lachapelle GP 1994. Canadian Journal of Soil Science 74, 335-343.

**Sodium-Affected Soil Identification in South-Central Illinois by Electromagnetic Induction**, Nettleton WD Bushue L Doolittle JA Endres TJ & Indorante SJ 1994., Soil Science Society of America Journal 58, 1190-1193.

**Estimating Depths to Clay Pans Using Electromagnetic Induction Methods**, Doolittle JA Sudduth KA Kitchen NR & Indorante SJ 1994. Journal of Soil and Water Conservation 49, 572-575.

**Estimating Herbicide Partition Coefficients from Electromagnetic Induction Measurements**. Jaynes DB Novak JM Moorman TB & Cambardella CA. 1995. Journal of Environmental Quality 24, 36-41.

**Yield Mapping by Electromagnetic Induction**, Jaynes, D.B., T.S. Colvin, and J. Ambuel. 1995. p. 383-394. In P.C. Robert, R.H. Rust, and W.E. Larson (ed.), Proc. 2nd Intl. Conf. on Site-Specific Management for agricultural Systems. ASA, CSSA, and SSSA, Madison, WI.

**Spatial Prediction of Soil Salinity Using EM Induction Techniques 1. Statistical Prediction Models**, Lesch SM Strauss DJ & Rhoades JD 1995., A comparison of multiple linear regression and cokriging, Water Resources Research 31, 373-386.

**Noninvasive Soil Water Content Measurement Using Electromagnetic Induction**, Sheets K.R. and J.M.H. Hendrickx. 1995. Water Resources Res. 31(10): 2401-2409.

**Electromagnetic Induction Sensing as an Indicator of Productivity on Claypan Soils**, Sudduth KA Kitchen NR Hughes DF & Drummond ST 1995, Proceedings of the Second International Conference on Site Specific Management for Agricultural Systems.

(Eds. Probert, P.G., Rust, R.I.H. & Larson, W.E.). pp 671-681.

**Evaluation of Calibration Methods for Interpreting Soil Salinity from Electromagnetic Induction Measurements**, Johnston, M. A., M. J. Savage, J. H. Moolman, and H. M. du Plessis. (1997), Soil Sci. Soc. Am. J., 61:1627-1633.

**Monitoring for Temporal Changes in Soil Salinity Using Electromagnetic Induction Techniques**, Lesch, S. M., J. Herrero, and J. D. Rhoades. (1998), Soil Sci. Soc. Am. J. 62:232-242.

**Using Electrical Conductivity to Provide Answers for Precision Farming**, Lund, E.D. and C.D. Christy. 1998., p. I-327-I-334. In Proc. First Intl. Conf. on Geospatial Information in Agriculture and Forestry. ERIM International, Ann Arbor, MI.

**Calibrating an Electromagnetic Induction Instrument to Measure Salinity in Soil Under Irrigated Cotton**, Triantafilis J Laslett GM & McBratney AB 2000, Soil Science Society of America Journal 64, 1008-1017.

**Comparison of Two Electromagnetic Induction Tools in Salinity Appraisals**, Doolittle, J., Petersen, M., and Wheeler, T. (2000), Submitted to Jour. Soil Soil and Water Conserv. Oct. 2000.

**Application of the EM-31 Terrain Conductivity Meter in Highly-Conductive Regimes**, Reid, E. James, A. Howlett, Exploration Geophysics (2001) 32, 219-224.
